

Poster Session Participants

Research/Clinical

1. “Newborn Screening Study at NIH”
Thierry Vilboux, Mike Erdos, David Adams, Marjan Huizing, William A. Gahl
2. “Cysteamine treatment increases intracellular glutathione in proximal tubular cells”
M. Wilmer, L. Kluijtmans, L. Monnens, L. van den Heuvel, E. Levtchenko
3. “Neurocognitive Functioning in School-Aged Cystinosis Patients”
Besouw, M.T.P, Hulstijn-Dirkmaat G.M, Van der Rijken R.E.A, Levtchenko E.N.
4. “Development of a Cysteamine in situ Gelling System for the Treatment of Corneal Crystals in Cystinosis”
O. Rabiou, B Lawal, S Lalji, U Lingam, C Tuleu, R Sekhri, W Van 't Hoff, K. Nischal.
5. “Functional Characterization of Cystinosin – LKG”
Francesco Emma, M.D.
6. “Determination of Intraleucocitary Cystine by High Performance Liquid chromatography”
Leticia Belmont-Martínez, Vanessa Bosch Canto, Juan Carlos Juárez Echanove, Marcela Vela-Amieva
7. “Successful treatment of the murine model of Cystinosis using bone marrow cell transplantation”
Stephanie Cherqui
8. “Identification of genetic variants in the *CTNS* gene in cystinosis family members”
K.A. Freed, E.K. Moses, J.E. Curran, M.P. Johnson and J. Blangero

Industry/Advocacy

9. “Clinical Development of RP103 Raptor’s Delayed Release Cysteamine Product”
Thomas E. (Ted) Daley, MBA; Patrice P. Rioux. MD, PhD
10. “Cystinosis Research Network Public Education Program”
Karen Gledhill, CRN Secretary
11. “Cystinosis Research Network Scholarships”
Pam Woodward, CRN VP, Family Support

12. “A.I.R.G. France (Association for information and research about renal genetic diseases)”
Francois Couppey
13. “Cystinosis Foundation Ireland”
Mick Swift

Patient/Family

14. Living a Full Life with Cystinosis/Research Studies Gabe has participated in at UCSD.
Rodney and Tammy Stephenson
15. Mack Maxwell’s Workout
Mack Maxwell
